

Mould Carriers

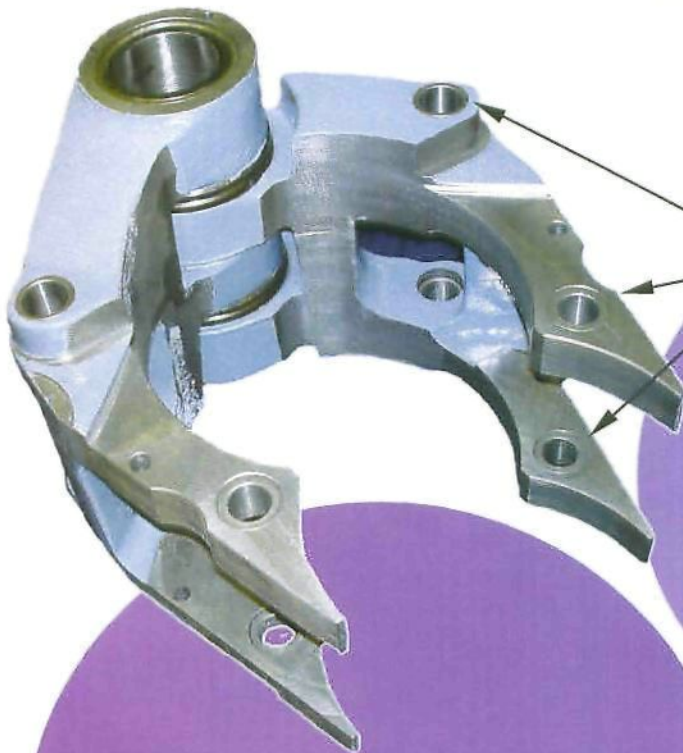

Introduction:

With the improvements made to our production capabilities, 2004 marked the start of manufacturing of variables including mould carriers. These can be to standard design or with special modifications. The list of carriers produced is continually increases on a monthly basis but the list overleaf gives an indication of our capabilities at the time of writing (April 2005):

Features:

- All carriers CNC machined for accuracy and repeatability
- All carriers individually numbered and logged as part of quality control
- Customised carriers can be supplied to suit your own requirements
- Large hardened, replaceable bushes can be fitted to the large pin holes to reduce wear, reduce problems with loose bushes and increase the lifetime of the carriers

5-1/2" DG Mould carrier with additional hardened bushes and large bushes in the link pin position

**Mould Carrier Availability as of May 2005**

	Description	Based on	Alterations
4-1/4" DG			
191-5990-1	4-1/4" Mould carrier		
IP-15-050	4-1/4" Mould carrier - modified	191-5990-1	Bushed link pin holes
5" DG			
191-9159-2	5" DG Blank mould carrier No.2		
IP-15-004	5" DG Blank mould carrier No.2 - modified	191-9159-2	Bushed link pin holes, screw in insert location pin
191-9010-2	5" DG Mould carrier No.2		
IP-15-056	5" DG Mould carrier No.2 - modified	191-9010-2	Bushed link pin holes
191-9011-1 and -2	5" DG Mould carrier No.3		
IP-15-033	5" DG Mould carrier No.3 - modified	191-9011-1	Bushed link pin holes
IP-15-039	5" DG Mould carrier No.3 - modified	191-9011-2	Bushed link pin holes
5-1/2" DG			
23-170	5-1/2" DG Mould carrier No.1		
IP-15-043	5-1/2" DG Mould carrier No.1 - modified	23-170	Bushed link pin holes
23-1013	5-1/2" DG Blank mould carrier No.2		
IP-15-016	5-1/2" DG Blank mould carrier No. 2 - modified	23-1013	Bushed link pin holes, machined for additional clearance
IP-15-021	5-1/2" DG Mould carrier No.2 - modified	23-1017	Bushed link pin holes

If the carrier you require is not on our list please call - we are continually adding to our availability
